

# Trimble Siteworks Positioning Systems

For Construction Surveyors and Supervisors

# Up and Running

Not down and waiting.

On site, the word “wait” is the enemy of progress. That’s why the fully integrated **Trimble® Siteworks Positioning Systems** are designed to eliminate downtime by making every minute more productive. With increased processing power and Windows 10, the systems enable quicker handling of complex files and 3D data sets, all on a much larger screen—meaning you can spot issues and solve problems before they slow you down.

**Reposition with Siteworks, a Trimble Connected Site® technology**

## MADE FOR THE WAY YOU WORK

Work faster and better with **Trimble Siteworks Software**. The modern interface is optimized for ease-of-use and productivity. Colorful graphics, natural interactions and gestures make Siteworks intuitive and easy to learn. Personalize the interface to match your workflow, and configure views to suit your needs.

## CONNECTED CONTROLLERS

### Trimble TSC7 Controller - Big screen, giant potential

A bigger screen, powerful processing power and Windows 10 means you're carrying all the potential of a laptop - right in the palm of your hand.

- 7-inch daylight readable screen
- More processing power
- Windows 10
- Optimized for Siteworks software
- Backlit keyboard

### Trimble T10 Tablet

The military grade Trimble T10 Tablet gives you high performance processing power in the field.

- Military grade ruggedness
- Microsoft Windows 10
- 10.1-inch, sunlight readable display
- Long-life lithium ion batteries

## A SMART(ER) RECEIVER

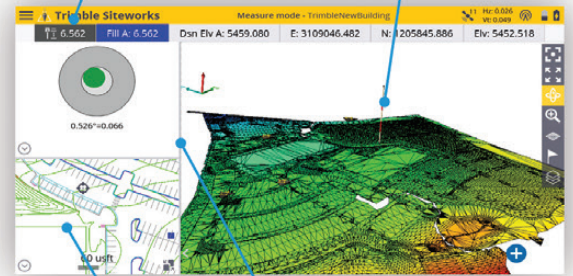

The **Trimble SPS986 GNSS Smart Antenna** is engineered to stand up to the most dynamic and rugged jobsite measurement applications. The integrated smart antenna design and quick release connector make it easy to transport and quick to set up.

- Ultra-rugged
- Integrated IMU for eBubble functionality
- Supports all GNSS constellations
- Base or rover

Modern interface

# Trimble Siteworks: Configurations

## Siteworks for Construction Surveyors

The **Trimble Siteworks Positioning System for Construction Surveyors** is comprised of the Trimble SPS986 GNSS Smart Antenna, the TSC7 Controller and Siteworks Software. It enables construction surveyors to work with complex 3D models, collect large data sets faster, visualize complex 3D models more easily and work day or night efficiently.

## Siteworks for Supervisors

The **Trimble Siteworks Positioning System for Supervisors** includes the SPS986 GNSS Smart Antenna, Trimble T10 Tablet and Siteworks Software. Construction supervisors can run full office software packages, including Business Center - HCE and Microsoft Office, and work easily with data and 3D models in the field without carrying a laptop.
